

ABOUT US

We are passionate about people, finance and business. Arrow DigiFin's owner Yolandé, a Professional Accountant (SA) and former Financial Director in the IT-industry, has been equipped with unique experience in both the finance and IT industries.

BUSINESS OBJECTIVE

Our business motto is *straight and to the point*; which underpins our objective to solve financial challenges with sensible and cost-effective solutions. We can do this in-house by assisting finance individuals or teams to enhance their position or outsourced to us, empowering owners to focus and drive their business forward while we manage the finances.

SKILLS

We are especially good at transforming business finance functions from onerous, administrative, paper-driven environments to smart, digital processing and reporting environments. This process we call Digital Transformation. There is always room for improvement and working smarter utilizing technology.

WHAT SETS US APART

We have a hands-on approach to implement the most effective technology based on each clients' individual needs. Our goal is to streamline the business' finance function and enable quicker executive level insights by providing simpler and faster outcomes. This sets us apart and we believe it is key to drive your business forward to success.
